✉ danishmdaqil5@gmail.com

☎ 0132926519

📍 KAMPUNG GAJAH, PERAK

♂ MALE

## Profile

I have good work and management skills. I also work well with others and communicate with them. I am highly confident in my ability to speak in front of an audience, take on new challenges, and learn new things. I am ready for anything that lies ahead. I may also collaborate with others since I enjoy learning from other people's perspectives and find that doing so broadens my horizons.

## Education

### Diploma In Information Technology (Digital Technology), Politeknik Balik Pulau

2021 – 2023

CGPA : 3.67 / 4.00

**SIJIL PELAJARAN MALAYSIA, SMK CHANGKAT LADA**  
01/2016-02/2021 | Kg Gajah, PERAK

## Awards

### Dean's Award Session 2 : 2022/2023

GPA : 3.79

## Projects

### Final Year Project

*Smart Dustbin*

Make the Smart Dustbin Project using Arduino (IoT). This project aims to assist the wardens and cleaners at Politeknik Balik Pulau in efficiently managing and monitoring the rubbish in the hostels. We also have developed an application to monitor the rubbish levels in the dustbins. This application focuses on Java and is part of the DFP30243 Object-Oriented Programming subject.

### CTOS Report

During my industry training, I developed code to generate a PDF CTOS Report and store the data in a database. Additionally, I utilized an API to connect the website with CTOS, while also creating a front end for the website

## Skills

### Programming Languages

(Java, Python, C++)

### Web Development

(HTML, CSS, JavaScript, PHP, Visual Studio, Bootstrap, Laravel)

### Application Development

(Android Studio)

### Database Management
